Pica (10 pitch) Spacing

IBM "SELECTRIC" TYPE SAMPLES

COURIER	Similar in character face styling with the IBM Standard Typewriter, this style is a popular choice for many typing applications. ([illegible])
[illegible]	For invitations, [illegible] and a wide range of uses, a large [illegible] style that produces a [illegible] number of [illegible]. ([illegible])
ELITE	For general use in a wide range of applications. Designed to blend well with the Pica style of the IBM Standard Typewriter. ([illegible])
[illegible]	To convey the feeling of printed material. A weighted type recommended for text copy, or for correspondence where preferred. ([illegible])
[illegible]	For reports, manuals, offset and spirit processes, as well as routine correspondence. A square-serif face for a modern look. ([illegible])
LETTER GOTHIC	This sans-serif style looks well with 10 or 12 pitch. Recommended for general correspondence and statistical reports. ([illegible])
LIGHT ITALIC	A change of pace typestyle that may be used singly or in combination with other typestyles to add impact to correspondence, reports and memos. ([illegible])
PRESTIGE ELITE	For reports, spirit masters and photo-offset applications. [illegible] ([illegible])
[illegible]	For general use in a wide range of applications. Designed to blend well with the [illegible] of the IBM Standard Typewriter. ([illegible])
SCRIPT	For a warm, personal touch in correspondence. The simulated handwriting also provides [illegible] of pace in memos, bulletins or [illegible]. ([illegible])
[illegible]	To convey the feeling of printed material. A weighted type recommended for text copy or for correspondence where it is preferred. ([illegible])
[illegible]	For reports, [illegible], [illegible] and offset applications. A [illegible] ([illegible])
DUAL GOTHIC	This sans-serif type similar to Dual Gothic of the IBM Standard Typewriter [illegible] ([illegible])
[illegible] SYMBOLS	[illegible]
